

Setting up Guide

Lamp model: Houyi

How to set up Houyi :

1- Assemble your lamp as show on the diagram.

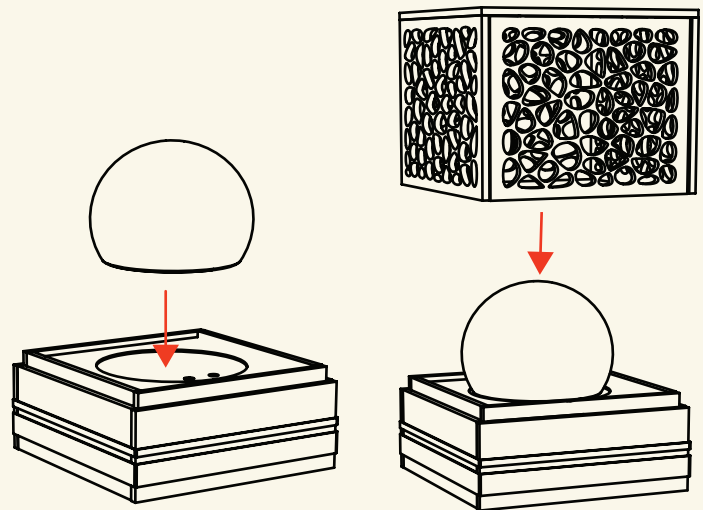

2- The PLA dome diffuser is an optional part. You can place it above the LED if you want to reduce aggressive glaring from the LEDs or remove it if you want to have a clearer shadow projection.

3- Just plug the wire into a power outlet and the lamp is ready to be used.

Switching on the lamp

Houyi lamp is equipped with a touch sensor.

Just touch the large aluminum strip on the sides (in red) to switch it on and off.

Place Dome Diffuser over LED (optional)

Place patterned lid over lamp base
